

PRADEEP YADAV

Kanpur, Uttar Pradesh, India | +91 6388142437 | pradeepyadav25jan@gmail.com

LinkedIn: [pradeep-yadav-a8410a256](https://www.linkedin.com/in/pradeep-yadav-a8410a256)

Professional Summary

Detail-oriented **Data Analyst** with hands-on experience in **SQL**, **Python**, **Power BI**, and **Tableau**, specialising in **dashboard development**, **KPI reporting**, and **exploratory data analysis (EDA)**. Proven ability to transform complex datasets into actionable business insights through **statistical analysis**, **trend analysis**, and **data visualization**. Adept at cross-functional **stakeholder reporting** to support strategic decision-making. Seeking an **Analyst role** to leverage expertise in **business intelligence**, **financial** and **risk analytics** for measurable business impact.

Technical Skills

Programming & Query Languages:	Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL, PostgreSQL), Advanced Excel (Pivot Tables, Power Query, VLOOKUP, VBA)
Visualization Tools:	Microsoft Power BI, Tableau, Google Data Studio, Excel Dashboarding
Analytics & Reporting:	Exploratory Data Analysis (EDA), Statistical Analysis, KPI Tracking, Data Cleaning & Validation, Trend & Variance Analysis, Data Interpretation
Tools & Platforms:	Jupyter Notebook, Git & GitHub, VS Code, Microsoft Office Suite
Soft Skills:	Analytical Thinking, Communication, Problem Solving, Time Management

Professional Projects

Sales Performance Analytics Dashboard

Tools: *Tableau, SQL, Advanced Excel* / Year: *2025*

- Developed an interactive **sales analytics dashboard** to monitor revenue, profit trends, customer segments, and regional sales performance across key territories.
- Conducted **trend and variance analysis** identifying >15% quarterly variation in sales performance, enabling targeted corrective actions.
- Executed **SQL queries** for data extraction, cleaning, and transformation prior to dashboard integration.
- Applied **data visualization & storytelling** techniques to convert complex datasets into actionable business insights.
- Key Skills:** Tableau, SQL, KPI Reporting, Business Intelligence, Dashboard Development, Trend Analysis, Stakeholder Reporting

Python-Based Exploratory Data Analysis (EDA) Pipeline

Tools: *Python, Pandas, NumPy, Matplotlib, Seaborn* / Year: *2025*

- Built reusable Python scripts for **data cleaning**, preprocessing, profiling, and visualization of structured datasets within Jupyter Notebook.
- Performed **exploratory data analysis** to detect patterns, correlations, outliers, and business trends using statistical techniques including correlation and distribution analysis.
- data validation** and preprocessing workflows, improving analytical accuracy for downstream reporting.
- Key Skills:** Python, Pandas, Statistical Analysis, Data Cleaning, EDA, Data Visualization, Reporting Automation

Education

Bachelor of Arts — English & Mathematics

2019 – 2021

Swami Vivekanand Subharti University (SVSU), Meerut, Uttar Pradesh, India

Certifications & Continuous Learning

- SQL for Data Analysis Certification (*In Progress*)
- Python for Data Science Certification (*In Progress*)
- Self-study: Statistics for Data Analysis, Business Intelligence, Financial & Risk Analytics Fundamentals, DSA(Python)

Areas of Interest

- Data Analytics
- Financial Analytics
- Risk Analytics
- Data Science
